Application for Mid-Weight Interior Designer

Megan Wisely Interiors, Aberdeen

Introduction

I am an accomplished interior designer with a proven track record of creating thoughtful, functional, and visually engaging spaces. This portfolio showcases a diverse selection of my work, including competitive architectural projects, public installations, residential interiors, visual information systems, and graphic design.

My approach is rooted in a deep understanding of client needs, technical accuracy, and a passion for innovative design. I bring versatility to every brief—whether developing modern or classic kitchens, designing living spaces, creating wayfinding systems, or producing promotional materials. Each section of this portfolio reflects my ability to manage complex requirements, collaborate effectively, and deliver work that consistently exceeds expectations.

With strong proficiency in industry-standard tools and a keen eye for detail, I take pride in transforming concepts into meaningful and well-executed environments. My work reflects not only technical capability but also a commitment to sustainability, user experience, and contemporary design trends.

This portfolio has been tailored specifically for the Mid-Weight Interior Designer role at Megan Wisely Interiors, demonstrating my readiness to contribute to a dynamic and creative team in Aberdeen.

Competitive Projects

Showcase conceptual and realised projects for public spaces, including outdoor cafés, commemorative installations, and exhibition stands. These works highlight creativity, structural awareness, and the ability to respond to varied design briefs.

Become our distributor

Over the years we have helped a large number of small businesses to become established as our distributors. Many of them demonstrate healthy growth rate from the very first season in business, are expanding and opening new sales outlets with displays of IMEDEKA cabins. Mutual loyalty goes both ways between IMEDEKA and distributors, and both sides benefit from it long term. Distributors get quality product they can be confident with, backed with strong manufacturers support - and us at IMEDEKA, are glad to enjoy a steady flow of orders by our factories. That's why we grow and get stronger together with our distributors on this competitive market.

What we can offer:

- well established quality product range
- product display for showrooms at discounted price
- advice and contents for website for internet sales
- logistics solutions
- established procedures for order processing

Our advice and business support system:

- new product designs for each season
- training of sales personnel
- training of fitter teams (construction)
- bespoke product design and pricing service
- renewable stock of spare components
- advertising campaign material
- B2B advice

We are timber people ourselves, and like dealing with customers who love timber too.

Customer's exclusive range

Some of our distributors come with their own cabin designs to be manufactured at our factories on exclusive basis.

Standard cabins - DEXA range

DEXA range cabins are an economic solution for a variety of uses: children, garden offices or garden rooms, spa, sauna, pool house, kids playhouse, home gym, holiday or residential cabin, guest house, garage or workshop - you name it!

All our cabins come in flat packaged kits, which contain pre-assembled components, including glazed windows and doors, all fixtures and decorations, assembly drawings - everything comes as standard.

Wall tops available in thickness range: 28mm, 34mm, 45mm, 70mm, 90mm, and Twixskin walls with cavity for insulation 45-45mm and 70-70mm.

All orders for standard design cabins are produced and made ready for shipment in 3 weeks lead time.

Please visit our website www.imedeka.it for more information.

Bespoke cabins and professional design service

Our observation is that market goes towards bigger and more complicated cabins year after year. End buyers more than often are approaching our distribution with their own design ideas for cabins which suit their specific requirements.

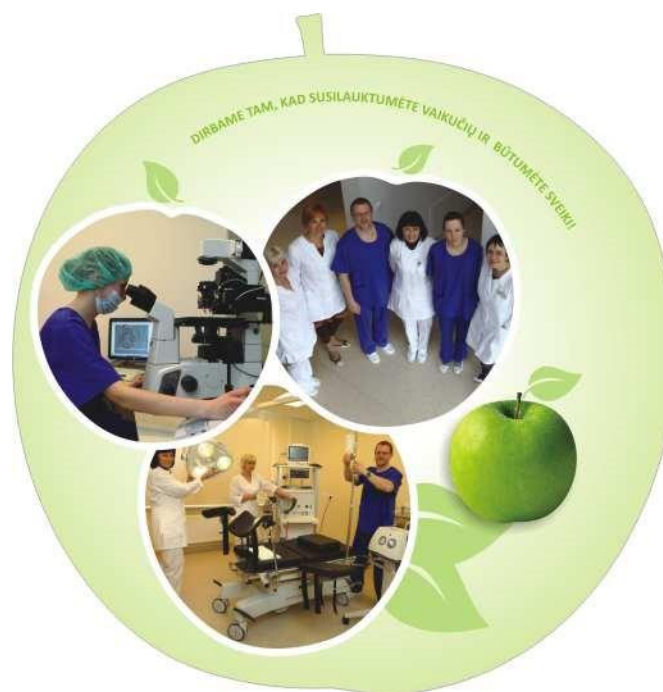

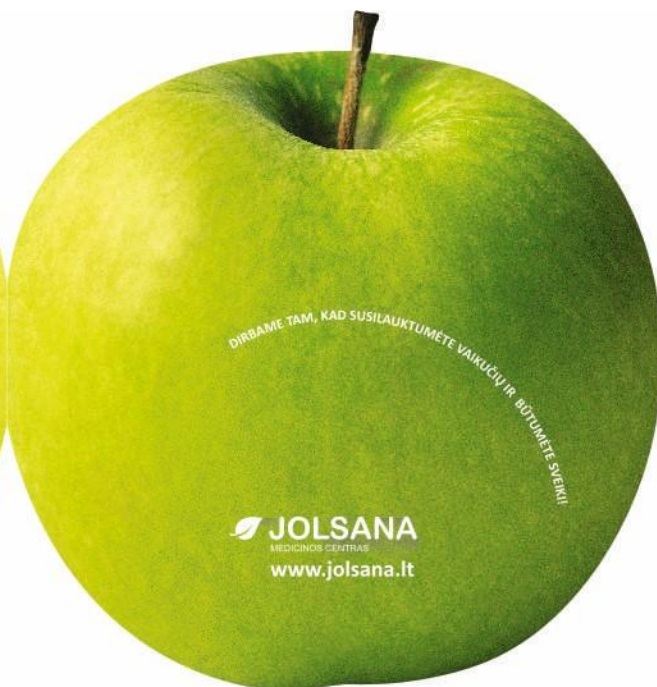

In such case of enquiry for bespoke - all you have to do is email us a simple sketch of floor plan with basic measurements and window/door positions along with short description of the cabin.

We will be able to work out our quote for you in less than 48 hours, for your further discussion with a customer.

As soon as order is confirmed, our engineers will work out a full set of drawings, to be confirmed by your customer before production.

All bespoke cabin orders are manufactured and made ready for shipment in 4 weeks order/lead time.

Medicinos klinika **JOLSANA** -
vienintelė sveikatos priežiūros įstaiga Vakarų Lietuvoje,
kurioje konsultuojama, tiriama, gydoma ir atliekamos visos

Kamineris UAB was established in 1995 and is one of the largest forwarding companies in Lithuania. It has subdivisions operating in Klaipėda, Vilnius, Minsk and Moscow which render cargo transloading and delivery services that guarantee quality customer service. Our company has long and comprehensive experience in the area of rail freight forwarding and offers these services:

- forwarding
 - rail transportation in wagons of all types (import, export and transit)
 - rail tariff payment within the territories of Lithuania, Latvia, Estonia, Russia, Belorussia, Ukraine, Moldova, Kazakhstan and other countries
 - freight declaration, custom clearance, insurance and transport documents management.
- The Kamineris UAB cargo terminal is able to transload and store bulk and general cargo in Klaipėda port.

UAB «Kamineris», учрежденное в 1995 году, является одной из крупнейших экспедиторских фирм в Литве. Подразделение, действующее в Клайпедо, Вильнюсе, Минске и Москве, предоставляют услуги по перевалке и доставке грузов, гарантируя качественное обслуживание клиентов.

Наша компания, имеющая многолетний и всесторонний опыт в области экспедирования грузов железнодорожным транспортом, предлагает следующие услуги:

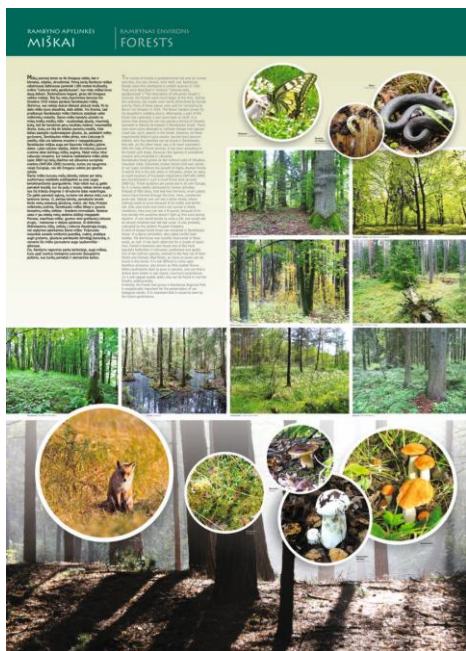

- экспедиция;
 - транспортировка железнодорожным транспортом в вагонах всех типов (импорт, экспорт и транзит);
 - оплата железнодорожных тарифов на территориях Литвы, Латвии, Эстонии, России, Белоруссии, Украины, Молдавии, Казахстана и других стран;
 - декларирование грузов, таможенное оформление, страхование и оформление транспортных документов.
- Грузовой терминал UAB «Kamineris» способен перегрузить и складировать насыпные и генеральные грузы в Клайпедском порту.
